

Dino's Garden

Dino has a garden. He plants different kinds of vegetables in his garden. He waters his plants every day. He makes sure that no worms eat his plants. His plants are very healthy.

A Bee

I see a bee. It is a big bee. The big bee is flying from one tree to another. It also flies among the flowers. Lina is scared of bees. She sees the bee and runs quickly.

Plants

Plants are very useful. They give us food, shelter and medicine. Plants are like people, too. They need air and water. They need sunshine, as well. We should take care of plants and see how far they can grow.

Flowers

Mona has a flower garden. There are many kinds of flower in her garden. They are pretty and colorful. They smell so good, as well. Her favorite flowers are roses and sampaguita.

On the Farm

Last Saturday, Lito and Ana visited their grandma and grandpa. Grandma and grandpa live on a farm. On their way, they saw carabaos, goats, sheep and ducks. There were so many animals on the farm.

Rose

I have a pretty flower. My best friend gave me one because yesterday is my birthday. It is a rose. Roses can be red, white and pink. Mine is red. I put it in a vase. It is not fragrant, but it looks very nice. I like it so much.
